 LAGOS, NIGERIA

POPOOLA STEPHEN

Frontend developer with about 3 years of experience in Javascript, TailwindCSS, Typescript, React, Next Js, and React Native. Skilled in developing high-performance, responsive user interfaces with a strong focus on security, accessibility, and maintainability. A collaborative team player with excellent communication skills, committed to delivering effective solutions that align with business goals and enhance user experience.

SKILLS

Languages: HTML, CSS, JavaScript, Typescript.

Frameworks: TailwindCSS, Typescript, React JS, Next JS.

EXPERIENCE

Leadway health, Nigeria — *Frontend Developer*

JULY 2025 – Present

- Worked along with backend developers to create a web application for pharmacy benefits that oversees rider assignments, medication deliveries, and payment procedures.
- Developed a third-party web application to securely log enrollee codes and IDs and track deliveries for riders and partner pharmacies.
- Designed and implemented responsive, user-friendly interfaces in React.js, improving efficiency and reducing manual errors.

MOVAM Technologies, Nigeria — *Frontend Developer*

JULY 2024 – JANUARY 2025

- Led the frontend development of scalable web and mobile applications, optimizing UI/UX for enhanced user engagement.
- Streamlined development workflows, reducing project delivery time by 15% while improving team efficiency.
- Architected and maintained robust React and Next.js applications, ensuring seamless integration with backend APIs.
- Authored comprehensive technical documentation, improving onboarding and project maintainability.

- Effectively communicated technical updates, ensuring alignment across engineering and business teams.

PEDAGOGIC HUB, Nigeria — *Frontend Developer*

FEBRUARY 2023 – JUNE 2024

- Led the development and optimization of a scalable e-learning platform, enhancing user experience and increasing student engagement by 30%.
- Engineered and maintained responsive web applications using **React, Next.js, and TailwindCSS**, ensuring seamless performance across multiple devices.
- Spearheaded the implementation of interactive learning modules, boosting content accessibility and user retention.
- Streamlined frontend workflows and improved development efficiency by 25% through optimized code structures and reusable component libraries.
- Collaborated with cross-functional teams to translate complex UI/UX designs into functional and accessible interfaces, improving platform usability.
- Authored comprehensive technical documentation, facilitating smoother onboarding for new developers and maintaining code consistency.

FREELANCING, Remote — *Frontend Developer*

SEPTEMBER 2022 – JANUARY 2023

- Designed and developed responsive, high-performance web applications using **JavaScript, TypeScript, React, Next.js, and TailwindCSS**.
- Collaborated with clients to translate business requirements into intuitive, user-friendly interfaces, improving customer engagement and retention.
- Optimized frontend architectures for scalability and maintainability, reducing load times and enhancing overall application performance.
- Implemented best practices for accessibility, SEO, and security, ensuring compliance with industry standards.
- Provided technical consultation and support, delivering clean, well-documented code to streamline future development efforts.

EDUCATION

University of Lagos, Nigeria — BSc. Biochemistry

Zuri Team, Nigeria – Frontend Certification in HTML/CSS/JavaScript
